

# Lucas Steedman

CHIEF TECHNOLOGY OFFICER

## EXPERIENCES

### CHIEF TECHNOLOGY OFFICER

Since January 2021

Managing a small multi skilled team, my role is to implement Qorus' global strategy and accompany its digital transformation. I then execute all the digital projects, from gathering the team's needs through to launch, including design and development.

### DIGITAL PRODUCT OWNER

from 2019 to 2021

### ASSISTANT PROJECT MANAGER

2017 à 2018

Assistant to a senior project manager in the handling of web and app projects. Tasks included gathering of user needs, production of technical specifications, coordination of wedesign and development, testing, launch and training.

## EDUCATION

### Masters degree in computer science and digital project management

2016 - 2018

A masters degree combining technical skills with a more global approach to understanding digital challenges within companies. Second year completed with an apprenticeship.

University Paris VII Diderot

### Licence d'économie - gestion

2012 - 2015

Université Paris VII Diderot

### Licence de Langues, Littérature et Civilisation Étrangère

2012 - 2015

Université Paris VII Diderot

## ABOUT ME

CTO within a small firm of international reach, I drive the digital team with a big emphasis on web projects. Autonomous and proactive, I'm a problem solver with a good technical background that will find and oversee the digital solutions to meet your strategy.
